REMARKS

**RETURN TO CIA
LIBRARY**

1. No aircraft were seen at the Jueterbog-Altes Lager (N 52/E 69) airfield on 9 August 1950. *
2. Three air force officers, each about 30 years of age, were standing at the entrance to the field. Each wore a golden clasp on the right breast, two or three stars on the epaulets, and a decoration on the right lapel. **
3. Telephone and electric light poles still stood along the sides of the new runway which was not yet serviceable. Work on the taxiway leading from the eastern end of the runway to the flight control station seemed to have been completed. Only a few men were still working there. Most of the laborers were employed on grading and expansion work on the landing field south of the runway, and on the western end of the runway, from where a taxiway was apparently being built to the flight control station. ***

* [REDACTED] Comment. There is no information [REDACTED] that the air- 25X1
field has been occupied by an air unit.

[REDACTED] Comment. The golden clasp is worn by flying personnel. The other 25X1
insigne is not known. See annex for sketch of air force clasp and decora-
tion.

*** [REDACTED] Comment. The completion of the runway and work on the taxiways was 25X1
previously reported [REDACTED] on 17 and 18 July 1950. [REDACTED] The expansion of the landing field to 25X1
the south was previously reported. [REDACTED] The size of the new strip is not known.
